EDUCATION

University of Cincinnati, Carl H. Lindner College of Business – Cincinnati, OH *August 2022 – December 2026 (Expected)*
Degree: Bachelor of Science in Business Analytics and Information Systems
Honors: University Honors Scholar, Dean's List

PROFESSIONAL EXPERIENCE

Midwest Filtration – AI Applications Co-op; Cincinnati, OH *June 2026 – Present*

- Automated a Python + Azure SQL demand-planning pipeline deployed via Dockerized Azure Container Apps, scaling coverage to 13K+ parts / \$10.4M inventory.
- Engineered ABC/XYZ segmentation and Syntetos-Boylan classification powering automated EOQ, safety stock, and reorder-point logic for 1,276 parts at 90-98% service levels.
- Built a BOM/consumption reconciliation engine reclassifying \$4.6M of stock and reducing dead inventory 52%, plus a ranked exception engine generating 7,618 daily alerts with lifecycle tracking.

University of Cincinnati – Data Specialist Co-op; Cincinnati, OH *September 2025 – March 2026*

- Designed a low-latency Python + REST API pipeline extracting Google Analytics data for 100K+ monthly pageviews, enabling continuous retention insights.
- Developed multinomial logistic regression and random forest models achieving 91% accuracy for transcript classification.
- Engineered enterprise Power BI dashboards integrating gate counts, reservations, and reference statistics, informing a projected 20% increase in room utilization.

Edgewell Personal Care – Business Intelligence Intern; Shelton, CT *May 2025 – August 2025*

- Orchestrated ETL workflows across SAP HANA, modeling P&L statements, financial metrics, and granular sales data.
- Delivered a Walmart sales performance module driving a 12% uplift in targeted SKU promotions and reducing manual reporting 40% across a cross-functional team.
- Architected Power BI dashboards with drill-through, custom DAX, dynamic filtering, KPI tracking, and time-intelligence logic.

Great American Insurance Group – Data Operations Intern; Cincinnati, OH *September 2024 – May 2025*

- Developed interactive Tableau dashboards improving operational efficiency by 30% for the L2 Data Ops team (20 analysts).
- Designed optimized SQL pipelines and Snowflake schemas integrating 100M+ ServiceNow records across cloud workflows.

Great American Insurance Group – IT Project Coordinator Intern; Cincinnati, OH *February 2024 – September 2024*

- Extracted and cleaned 1,600+ CMDB service offering + server records, building ServiceNow dashboards that automated migration tracking and eliminated manual project tasks.
- Designed annual runbooks and monitored critical high-availability (HA) and disaster-recovery (DR) corporate test plans.

VNG Corporation – Business Analyst Intern; Ho Chi Minh city, VN *May 2023 – August 2023*

- Authored 2 Business Requirement Documents, User Requirement Document, and GUI prototypes for Cloud Portal and Staging Environment enhancements using Scrum and Kanban.
- Implemented monthly credit-revenue and usage analytics reports supporting customer behavior modeling.

ACADEMIC PROJECTS

Regork Customer Retention Analysis – Cincinnati, OH *February 2024 – April 2024*

- Led customer retention analysis using R, applying machine learning models (logistic regression, decision tree, random forest) to identify churn drivers and optimize retention strategies.
- Identified key churn drivers and informed retention strategies, including a cost-effective plan projected to reduce churn by 15% and safeguard an estimated \$500K in monthly revenue.
- Engineered a predictive model to forecast revenue loss, providing foresight that mitigated a projected revenue drop by \$1M annually.

LEADERSHIP & COMMUNITY ENGAGEMENT

DataFest 2025 – Best Visualization Prize *March 2025 – April 2025*

- Engineered an interactive Power BI dashboard leveraging 500M+ U.S. Census records with geospatial + demographic analytics to identify 3 high-opportunity real estate zones based on commuter density, business activity, and population trends.

MidWestCon Data Hackathon – Participant *August 2024 – September 2024*

- Conducted in-depth data analysis of census real estate database of 2K+ records to surface key insights for data-driven decision-making.

RevolutionUC Hackathon – Marketing Team Member *November 2023 – Present*

- Executed a multi-channel promotion strategy and a marketing campaign that resulted in a 30% increase in participant engagement.

SKILLS

Languages: Python, R, SQL, C# | BI & Visualization: Power BI, Tableau | Data & Cloud: Snowflake, SAP HANA, Azure Databricks
Analytics & Tools: Google Analytics, ServiceNow, Power Automate, Jira, Confluence, Figma, Visio | Web: HTML5, CSS, ASP.NET
